

Monaxis NC/NCH

Adding new strengths
to ultra-freshness

Linde

Developing and enhancing ultra fresh presentation with the new Monaxis-NC NCH system.

Advantages at a glance

- Strong-selling presentation of merchandise
- Potential sales increase over 5% compared to non-refrigerated product display
- Reduced product loss
- Diversity and quality enhancement
- Enhanced ultra fresh presentation
- Optimized ergonomics
- No need to move produce back to the cold room which reduces handling costs
- Prevention of stock shortage
- Simplified care, extremely easy system maintenance
- Impeccable cleanliness and hygiene
- Large choice of internal fittings
- Prevention of fruits flies
- Optional guarantee for the ultrasonic humidifying system (function and parts) available as part of a service contract

Product features

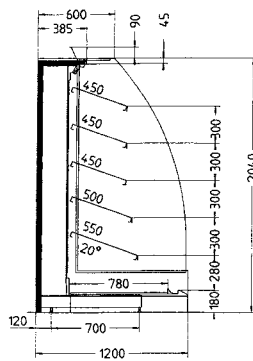

- Future-oriented cabinet design
- With/without humidifying system
- With/without trolleys
- No formation of water on the product or under the trolley with use of professional ultrasonic humidification
- Suitable for pallet goods
- All-round merchandiser for the ultra-fresh range: loose/packaged fruit & vegetables, convenience salads, smoothies, pasta, delicatessen ...
- Extra large evaporator surface for extra high air humidity

Accessories

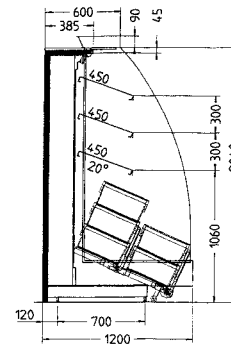

- Professional ultrasonic humidifying system
- Trolleys with slope-adjustable display shelves
- Panoramic glazed end-walls
- Plain, internally mirrored endwalls
- Glazed intermediate wall to create temperature zones to suit different product displays
- Hinged racks, air-ducted display shelves
- Mirrored top, external lighting, etc.

One merchandiser concept – Many applications

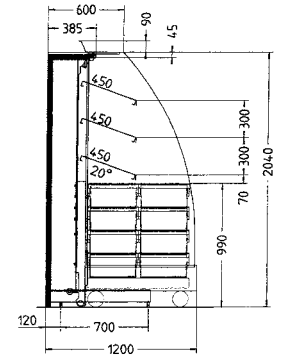

Monaxis NC versions

with display shelves

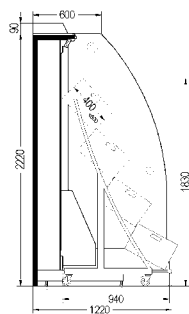

with display shelves and hinged racks

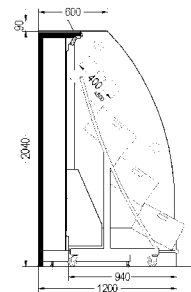

with display shelves and roll-in boxes

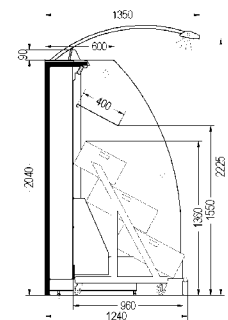

Ausstattungsvarianten Monaxis NCH

Monaxis 80-NCH.B2L with trolleys, height 2220 mm
