

**High temperature  
safety at highest  
energy savings**

## Think system – master energy

### Mirado GS. e<sup>\*cube</sup>

- New center-store multideck in the “Evolution5” range with smooth running insulating glass sliding doors, recommended for temperature-sensitive products
- High energy savings and temperature safety
- High transparency
- Reduced influence of radiation
- Reduction of ambient perturbations
- Reduced operating costs
- Avoidance of so-called “cold alleys” leading to increased customer comfort
- Reduced refrigeration load, smaller multicompressor packs, smaller piping diameters

### Other e<sup>\*cube</sup> energy saving components

- ECM fan motors

### e<sup>\*cube</sup> accessories

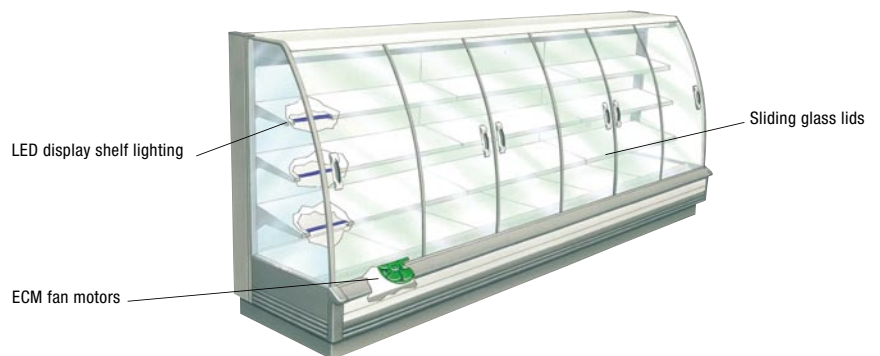

- LED display shelf lighting

### Total e<sup>\*cube</sup> savings potential

- Refrigeration load (requirement) max. 44%
- Total energy consumption max. 48%

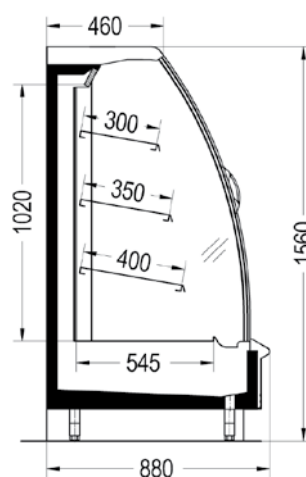

### Standard accessories

- CO<sub>2</sub> evaporator
- Electronic expansion valves
- T5 lighting with electronic ballasts
- D2D defrost system
- UA 300 refrigeration controller

### Technical data
