

Morea NC/NCH

Adding new strengths
to ultra-freshness

Linde

Developing and enhancing ultra fresh presentation with the new Morea-NC system.

Advantages at a glance

- Strong-selling presentation of merchandise
- Potential sales increase over 5% compared to non-refrigerated product display
- Reduced product loss
- Diversity and quality enhancement
- Enhanced ultra fresh presentation
- Optimized ergonomics
- No need to move produce back to the cold room which reduces handling costs
- Prevention of stock shortage
- Simplified care, extremely easy system maintenance
- Impeccable cleanliness and hygiene
- Large Choice of internal fittings
- Prevention of fruits flies
- Optional guarantee for the ultrasonic humidifying system (function and parts) available as part of a service contract

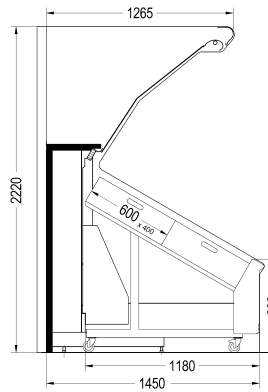

Product features

- Future-oriented cabinet design
- With/without humidifying system
