There's something special about an island...

That something about the Linde Visor Plug-in Refrigerated Island is that it seems to be stocked with special offers most of the time. Because it operates in varied temperature ranges. For dairy products, frozen prepared dishes, self-service fresh meats – and so on.

Yes, an island that is indeed something special. Because it is so versatile. Small wonder everybody wants to go there.

Visor Refrigerated Island Merchandisers

Highly flexible, highly versatile:
Island merchandisers for normal-temperature
refrigeration.

Visor ..45 (0°C to 2°C)

Linde refrigeration: Highly functional
with reliable temperature control.

Easy to load due to
low front height of 870 mm.

Display racks (included as standard)
adjust for height to obtain optimum
stocking according to the product
selection. Merchandise can be positioned
within shoppers' most convenient reach.
Also available with rack plate in white
powder-coated finish.

Visor ..45 case additionally has glass
baffle plates on all sides.

Bumpers for protection from
shopping cart collisions.
Available in several colors.

Environmentally friendly due to
use of R 404 A refrigerant and
pentane-foamed insulation.
No ozone depletion potential.

Automatic drip water evaporation by
waste heat of refrigeration system.

Extra large cubic capacity due to
300 mm high load line.

Load line marked on **outer pane** of end
wall. Stocking the case to this height
creates excellent long-range visual
attraction of displays. Merchandise is
not "buried" inside case.

High-grade acrylic glazing
on all sides.

**Scanner price marking
rail** mounts on both long
sides.

Case body available in
10 standard color finishes.

Flexibility of siting: Stand-alone,
in line-up or grouped.

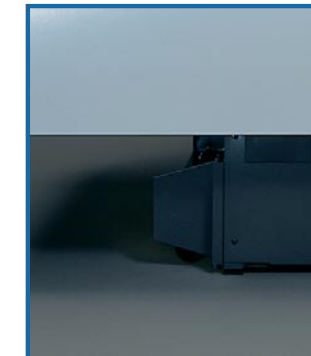

Options

Night cover (standard)

40 mm scanner price marking rail on long sides

Integrated caster base hidden
from view. Increases case height
about 26 mm.

Front-to-back wire dividers and wire
display racks.

Not illustrated:

- Display rack plates in white powder-coated finish or chromium-nickel steel.
